

## Lang & Reed 2017 Chenin Blanc – Napa Valley

This 2017 Chenin Blanc - Napa Valley is the fourth vintage in Lang & Reed's exploration of this wonderful grape in this appellation! A generation ago, the noble Chenin Blanc was the most widely planted white grape in the Napa Valley, almost double the acreage of Chardonnay. Today, there are a scant 17 acres that are in high demand by a new generation of winemakers, who seek to create something special from this unique varietal. For Lang & Reed, the inspiration remains the Loire Valley in France, where Chenin Blanc gained its fame. The source for this bottling comes from the Oak Knoll District in the Napa Valley. The vineyard is located a stone's throw from the Napa River, in an area noted for its cool climate and well drained soils.

The wines vinification is a collaborative effort between John and son, Reed. Reed has had his hand in making white wine on three continents - Sauvignon Blanc in New Zealand, Chardonnay in Napa Valley and Chenin Blanc in Chinon, France. For this wine, the grapes were whole-cluster pressed, left to settle for a day, and then transferred into 10 barrels, two of which were stainless steel and the remainder being seasoned French oak. Half of the barrels were inoculated with selected yeast strains, while the balances were allowed to ferment on the indigenous yeast. The lees were stirred (battonage) bi-weekly until February, one month before bottling. The final assemblage proved greater than any of the individual barrels.

### Description

The Lang & Reed 2017 Chenin Blanc – Napa Valley is a precocious one, with peach skin and pear fruit that immediately jump from the glass alongside the ever present hint of honeycomb. On the palate, the aromas are amplified with exotic fruit flavors and a trace of herb and linden. The texture is tender, and the flavors broaden with a hint of saline minerality, which leads into bright crisp acidity and adds to the wine's refreshing character. It will blossom and gain in complexity with additional bottle time.
